

THE NATIONAL SILVER PARTY

The State Senate adopted resolutions endorsing the action, and commending the address of the National Bimetallist League to the people of the United States. Commenting upon the action of the Senate the Carson Tribune under the caption, "Can They Deliver the Goods?" says:

By a vote of 10 to 4 the Senate guaranteed to deliver the electoral vote of Nevada to Sibley (Democrat), the Pennsylvania millionaire who the new Silver party proposes to nominate for President in 1896. Now let's see them deliver the goods.

The people of Nevada will certainly oblige the Tribune. It will see the Silver party deliver the goods in 1896 as it did in 1892, and as it delivered the whole store in 1894, unless in the next year and a-half Cleveland and his Cuckoos and their Republican allies, by their anarchical practices shall precipitate a revolution, and thus prevent the holding of the Presidential Election, as the money power precipitated a financial panic in 1893 to aid the Gold Trust in its attempt to destroy Silver and to permanently establish the gold standard. The policy of the Silver party of Nevada has arrested the attention of the true friends of silver everywhere and they are falling in line under its leadership. That no party ever reformed itself or ever adopted a vital measure of governmental policy to which it is vitally opposed, and that no party is capable of doing so, are axioms of political economy. The corollary of that self-evident proposition is that free coinage of silver can never be secured and our country peacefully relieved from the paralysis, the withering and blighting curse with which it is afflicted by means of the gold standard, until the allied powers of Cleveland and Sherman, the Wall Street twains are destroyed at the ballot box.

The Tribune and other Republican papers endorsed the platform adopted by the Republican State Convention in Reno, August 25th, 1894. That platform declared that the renomination of silver is the paramount political issue of the day. If that declaration was true then it is true to-day. The Bimetallist League declares that it is true and calls upon the people of the United States to substantiate the declaration at the ballot box. Will the Tribune deny its truth and repudiate the principal plank in the Republican State platform of 1894? If it does not then it will support the National Silver party and urge the 2,774 Republicans in Nevada to unite with the Silver men and present an unbroken front to the gold combination in 1896.

WITH THE BIMETALLIC LEAGUE.

Senator Perkins of California has returned to his home. In an interview on the silver question he says:

I say it without fear, I am opposed to the single gold standard and am with the American Bimetallist League. Congressman Bryan of Nebraska in a speech to a large and enthusiastic audience at Nashville on bimetallism said:

Bimetallism is a necessity and the United States is large enough and powerful enough to resume the free and unlimited coinage of gold and silver regardless of the action of other nations.

Senator Perkins was elected as a Republican with the assistance of independent votes, and Mr. Bryan was elected as a Democrat with the aid of independent votes. Both are now in line with the principles of the Bimetallist League and doubtless will be heard in the next campaign against the gold-bugs.

CONGRATULATIONS.

The Carson Appeal now sees that it placed Mr. Summerfield in a false position last week when it intimated that he attempted to dodge the vote on the Graduated Income tax bill. It says:

The Appeal congratulates the Populist party of Nevada, in the accession to its ranks of the Honorable S. J. Summerfield, late Republican Senator from Washoe. When the Appeal last Fall told the voters of Nevada that Mr. Summerfield was a Populist, and was working the wires behind Doughty, his brother-in-law, its statement was discredited. It was evident, however, by his support of the income tax bill, that he is heart and soul with the most radical plank in the Omaha platform. It was rumored last evening that Hogan of Washoe ordered tar barrels burned in Reno over the fact that one sinner had repented, but the report was not authenticated at the hour of going to press.

NO EXTRA PAY.

An attempt yesterday to rush a bill creating a Legislative fund through the Assembly met with signal failure. Assemblyman Denton, who feebly and favored the bill, seems to think that one of his first and greatest duties is to rake the Treasury. A majority, however, did not agree with him. McNaughten called his attention to the fact that he received pay for days on which he rendered the State no service, but that reminder only excited his covetousness and made him all the more intent on prolonging the session or forcing an extra session by obstructing the proceedings. The gentleman evidently places too high a value on his services for Nevada. His place is Congress.

General Rosecrans, ex-Register of the United States Treasury, is seriously ill at Redondo, Cal.

A RAILROAD MAGNATE'S OPINION.

President Huntington of the S. P. Says Times are better and will improve.

Collier P. Huntington, President of the Southern Pacific Company, when asked his opinion regarding the railroad and general business situation in New York, said, "I shall be very much surprised if this country doesn't have from now on five as good business years as it has known in fifty years."

"Times are already better and they are going to improve," continued Mr. Huntington. "The country is comparatively barren of goods and it must be supplied. I think there is more confidence on the part of business men. I met an old friend the other day, who told me he had been looking forward for a long time in the hope of seeing better prospects. He admitted that he couldn't see anything. I said to him: 'Why look forward? That is futile. Nobody ever saw to-morrow. You should look backward. You can see what happened yesterday. Just take a mental survey of your business career of fifty years and carefully consider important events in their succession and in their relation to one another. Then turn the whole thing over and you will have a panorama of about what you may expect in the future. Conditions are pretty sure to repeat themselves.'"

"In my own business experience of sixty years I have never known more than three good years in ten on an average, and there usually have been three pretty bad years in the same ten. Now, the last ten years were rather unsteady. That is, we didn't have a really satisfactory period within the decade. Therefore, I calculate that the time has come for improvement and a protracted period of prosperity. Of course, there are agitators and skeptics, who still keep up their dismal talk. I don't think such talk amounts to anything. I guess—and it is the privilege of every Yankee to guess—we're going to have five years of good business."

FINANCE.

A Characteristic Communication by a Populist.

EDITOR JOURNAL.—Farmer was very sorry to hear that Mr. A. H. Manning had been trying to lead B. F. Lee to a tray on the money question, by informing him that there was plenty of money. It may be that Mr. Manning has not yet felt the stringency, or it may be that his collections are very prompt, and possibly the interest on his securities is paid in advance. If such is the case, then Mr. Manning had very good reasons for informing Mr. Lee that there was money enough. But if such is not the case, then we would like for Mr. Manning to go more into detail, and tell why he told Mr. Lee, that there was plenty of money.

Mr. Lee also wishes to know what good the demonetization of silver has done?

Answer.—It has strengthened our credit abroad to such an extent, that we are now paying interest to Europe on several billion dollars worth of bonds and mortgages, and it has cheapened the cost of commodities to the bondholders so that it only costs them one half as much to live as it did before, and they are enabled to reinvest the saving thereby effected, in more bonds.

Of course a great deal of harm has been done by the demonetization of silver, but as Mr. Lee only wished to know what good had resulted from it, we have confined the answer to the question at hand.

Reno, March 11, 1896.

Parim, a Jewish Holiday, Celebrated Last Evening.

The Jewish population held a reunion at the Masonic Hall last evening, over sixty couples being present. The occasion was the celebration of Parim, a Jewish holiday. The program of the evening was interspersed with instrumental and vocal selections, recitations and dancing. Fredrick's Orchestra was present and enlivened the occasion with some of its best music.

Mrs. H. Fredrick was at her best and rendered some fine vocal solos.

Ed. Lachman and Jake Morris gave recitations in splendid style, and an instrumental duet by Della and Jessie Levy was immense.

Those present from a distance were Mrs. M. Cohn, Mrs. and Miss Pratt, Toby Cohn, Mrs. A. Bergman, Miss Lillie Cohn and Miss Sophia Jacobs of Carson, and Mr. S. Jacobs of Washoe.

The committee in charge of the entertainment was composed of Mrs. H. Morris, Miss Jennie Lachman and Mrs. H. Fredrick.

An Entertainment at the Asylum.

Fredrick's orchestra and a coterie of vocal talent visited the Asylum Sunday afternoon and entertained the patients with vocal and instrumental music. An hour or two was pleasantly spent and the patients seemed highly pleased. Superintendent Bergstein will endeavor to have either a musical or literary entertainment at least once a month, and will also allow the patients to have their Saturday evening socials every week. At these they take part in the dancing and have a general good time.

Joined Hands for Life.

Thomas Biggs, one of Reno's best boys, was married Sunday at San Francisco to Mrs. Nettie Eger, who is well known in Reno. The young couple arrived from California yesterday and will take up their residence here. The Journal extends its congratulations to the young couple and wishes them all the happiness possible.

Leeper Brought Back.

Sheriff Caughlin returned from Pioche Sunday evening having in charge Stewart Leeper, who had been arrested in the eastern part of the State. Leeper talks very little and declines to see anyone. It is doubtful yet as to his program regarding a defense, but under the circumstances there is little hope of him escaping a term in the State Prison.

The Best Preserves.

How to be always successful in preserving; how to make the very best jellies, jams, pickles, etc., and how, at the same time, to do it economically, can be learned from Ayer's Preserve Book. The receipts are all practical and never fail. Ayer's Preserve Book mailed free to any address on receipt of a two-cent stamp by J. C. Ayer & Co., Lowell, Mass.

A Big Deal in Tailings.

The Holmes Mining Company of Candelaria is reported to have sold to an English syndicate all the tailings at the Belleville mills, which amount to about 400,000 tons. The syndicate has also purchased of the Holmes Company a lot of low grade ore, the company to receive 25 per cent of the battery assay value.

Justice's Court.

Geo. Wah, a Chinese merchant, was arrested Sunday by Officer Hagerman for selling cigarettes, cigarette papers and tobacco without a license. He gave bonds for his appearance.

Vital Tablets.

Vitali is now being prepared in a special form for the stomach. We have realized for a long time that the membrane of the stomach, being similar to the membrane of other portions of the body, could, if this remedy were applied in a pre-digested form, be greatly strengthened. The preparation has the same action in the stomach as the natural juices, whose strength has been lost when stomach trouble exists. To prepare Vitali in this form has taken nearly two years of constant effort, and it is probably the only instance on record where a preparation has been made in a form already digested, requiring no action or effort on the part of the system to assimilate it.

The Tablets should be used whenever there is inflammation, congestion, or catarrh of the stomach and bowels. Indigestion, properly speaking, is a catarrhal condition of the stomach and bowels and prevents them from changing the foods into the proper substances for absorption.

Deserving Praise.

We desire to say to our citizens that for years we have been selling Dr. King's New Discovery for Consumption, Dr. King's New Life Pills, Bucklin's Arnica Salve and Electric Bitters, and have never handled remedies that sell as well, or that have given such universal satisfaction. We do not hesitate to guarantee them every time, and we stand ready to refund the purchase price if satisfactory results do not follow their use. These remedies have won their great popularity purely on their merits. S. J. Hodgkinson, druggist.

A Million Friends.

A friend in need is a friend indeed, and not less than one million people have found just such a friend in Dr. King's New Discovery for Consumption, Coughs and Colds. If you have never used this Great Cough Medicine one trial will convince you that it has wonderful curative powers in all diseases of Throat, Chests and Lungs. Each bottle is guaranteed to do all that is claimed or money will be refunded. Trial bottles free at S. J. Hodgkinson's drug store. Large bottles 50c and \$1.

A Chance for Lovely Highland Homes.

Ten 20-acre tracts, close to Reno, for sale at \$30 per acre. Also blocks or lots in the new University Addition at the head of Virginia street—bargains. Now is a good time to improve the opportunity. See C. O. Fowling at the Water Company's office. feb23ml

RECEIPTS.

H. Hamlin, the spectacle and eye-glass man, expects to leave Reno in a few days, and any one wishing anything in his line will do well to call on him.

Casper Becker expects to have his entire plant in working order by next Monday, when he will be in readiness to turn out the finest beer, soda and other beverages, also ice to order and at the shortest notice.

George Mott committed suicide in Carson Valley last week. The Courier says he had an attack of the grip three years ago from which he never fully recovered. He had been suffering greatly for a week or more before he committed the rash act, and it is supposed he was deranged.

The two special train-loads of cattle shipped to Chicago by John Sparks a couple of weeks ago brought such good prices that cattle have gone up a notch or two around these parts. Cattle owners should aid Mr. Sparks in movements of this kind, and it would bring Western buyers to time.

Harry A. Hayward, convicted at Minneapolis of the murder of Miss Ging, has been sentenced to be executed at a time to be fixed by the Governor of the State. Hayward calmly heard the dreadful sentence of the Court and exhibited no emotion whatever. Judge Smith said he had no doubt of the justice and righteousness of the verdict.

Prayer by Chaplain.  
Reading of Journal as usual.

BILLS INTRODUCED.  
By Boyle, S. B. No. 73—To consolidate the counties of Douglas, Lyon, Ormsby and Storey into one county, to be known as Carson county, provide for its government and other matters connected therewith. Referred to the special committee composed of the delegations from the counties specified.

By Comins, S. B. No. 77—Relative to the manner of issuing teacher's certificates. Education.

By Richards, S. B. No. 78—Regulating the compensation of Lander county officers. Lander Delegation.

By Leidy, A. B. No. 14—Consolidating certain Esmeralda county offices, regulating compensations; etc. Esmeralda Delegation.

By McDonald, A. B. No. 22—Regulating the compensation of White Pine county officers. White Pine Delegation.

By Denton, A. B. No. 157—Fixing compensation of members of the Legislature at \$3 per day and 15 cents mileage. Judiciary.

Senate substitute for A. B. No. 90—To provide for State revenue from the pasturage of sheep.

Message from the Governor approving S. B. No. 12, creating an Honorary Board of Visitors to the State University.

## GENERAL FILE.

S. B. No. 20—To grant aid to the State Agricultural Society—\$1,500 for the annual State Fairs of 1895-96. Tabled.

By Wilson, Senate substitute for S. B. No. 58—To facilitate the giving of bonds required by law, and regulate the business of surety companies in this State. Passed, 9 ayes.

By Wilson, S. B. No. 56—Amendatory of Act providing for the formation of corporations for certain purposes. Withdrawn by its author.

By Wilson, S. B. No. 57—Amendatory of Act concerning the giving of official bonds. Lost.

Gignoux gave notice of motion for reconsideration.

Substitute for A. B. No. 90—To provide for licensing the owning, raising, grazing, herding or pasturing of sheep in the various counties of the State. Passed, 10 ayes.

By Conboile, A. B. 112, by request—Amendatory of Act consolidating certain town and township offices in Storey county, fixing salaries, etc. Storey Delegation.

At 12:45 recess taken till 2 p. m.

## AFTERNOON SESSION.

By McNaughton, A. C. R. No. 13—Relative to the financial system of the United States; objecting to National and State banks as against the free and unlimited coinage of gold and silver at the ratio of 16 to 1, and instructing our Congressional Representatives in Congress, etc. Failed.

By Allen of Eureka, A. C. R. No. 14—Advocating the redemption of currency and other National obligations in silver coin.

Summerfield objected to the clause throwing the blame on the Republican party for the great silver crisis, when it was not the dominant power.

Skiggs believed the clause was about right so far as the Republicans are concerned.

Comins squarely agreed with the clause and said it was decidedly and unmistakably correct. He was formerly a Republican but the grand old party had made many bad mistakes which he could not endorse.

On final passage the roll call stood 10 to 2.

By Allen of Eureka, A. B. No. 162—Amendatory of Act fixing salaries of Eureka county officers and to consolidate certain offices therein. Passed.

## A GOOD CITIZEN PASSES AWAY.

W. L. Coffin's Death Occurs at an Early Hour Yesterday Morning.

Yesterday morning at half past 8 o'clock, surrounded by his heart-broken wife and eight sons, William L. Coffin, a highly respected citizen of Reno, passed beyond the mysterious veil. Silently and peacefully, like a tired child, he fell asleep with his loved ones near him; a hope fully realized that he has cherished during the last days of his illness. A few days ago, seeming to know that he was failing rapidly and that the struggle would soon end, he requested that his absent sons should be sent for that he might see them all once more before he died. His wishes were carried out and he held up bravely until the last arrived. It seemed to be a wonderful satisfaction to him, and when the last boy came he looked upon him long and earnestly, although too weak to talk. His wishes having been gratified he passed into a stupor from which he could only be aroused at intervals. This condition lasted some forty-eight hours previous to his death.

He was taken ill last November and has been confined to his house ever since. At times he suffered excruciating pain, but was patient and bore up well until within the last week or so, when he said he could not recover. Science and the faithful nursing of his wife were of no avail. Mr. Coffin came around the Horn in 1850, landing in San Francisco in that year and striking out into the gold fields. He returned to his old home in 1853 and married Mrs. Coffin, coming back to California with his bride and locating in Yankee Jim's, where his eight sons were born. In 1876 he moved to Reno and has lived here since that date. He was always a quiet man, but firm in his convictions. He was liberal, but without ostentation, and went about his business never in the smallest particular meddling with the affairs of others. His wife was the apple of his eye, his family his pride, his home his world. His eight grown boys were his companions and his little grandchildren his joy.

He leaves a wife and eight sons, viz: Wallace, Brewster, George, Edward, Herbert, Nelson, Frank and Charles, and seven grandchildren to mourn his loss.

The funeral will take place from the family residence on Fourth street at 2 o'clock this (Tuesday) afternoon.

Hood's Sarsaparilla Wrought Cure and Built Up System.

"Two years ago my little daughter Elsie, was afflicted with ulcerated sore eyes. I tried one of the best doctors in the city for about a year but her eyes seemed to grow worse. I had her treated by an oculist but his treatment did not benefit them. I then commenced to give the little one Hood's Sarsaparilla and after the first bottle I could see that there was great improvement. Elsie is now nine years old. Besides benefiting the special trouble mentioned Hood's Sarsaparilla has made her a strong and sprightly child. I will always speak highly of Hood's Sarsaparilla." J. H. # STORIES OF PAPER.

HOW WATER MARKS WERE MADE AND WHY THEY CAME INTO USE.

Clever Use Made of Them by Ireland in His Shakespearean Forgeries—Elaborate Designs Imposed by the "Dandy" Roll—The Bogus Virgin Mary Letter.

Stories and incidents innumerable are wound up in the art of paper making, and its mechanical processes have afforded to the ingenious story teller many a chance for a thrilling tale.

This is especially true of the system of placing water marks, so called, in various brands or makes of paper.

Perhaps the most interesting true story which has to do with this branch of the industry is that of the famous "Ireland's Confessions."

Ireland had fabricated some Shakespeare manuscripts, which for a long time were accepted as actual. They made such an impression indeed that a number of men, famous at that time for their erudition and for their literary standing, voluntarily prepared a testimonial attesting absolute belief in the authenticity of the manuscripts. To this document these men affixed their signatures and sent the paper broadcast.

The whole of the original edition of the fakes was disposed of in a few hours, and so great was the eagerness for the addition that single copies were disposed of in auction rooms at enormous prices.

Some time after that Ireland himself threw these gentlemen into much sorrow by explaining just how he had had fun with them.

Ireland's story was that the sheet of paper which he used was the outside of several others on which some accounts had been kept during the reign of Charles I. At that time Ireland was wholly unacquainted with the subject of water marks.

"I carefully selected," says he, "two half sheets not having any mark whatever, on which I penned my first effusion." A few pages further on he wrote: "Being thus urged forward to the production of more manuscripts, it became necessary that I should possess a sufficient quantity of old paper to enable me to proceed, in consequence of which I applied to a bookseller, who, for the sum of 5 shillings, suffered me to take from all the folio and quarto volumes in his shop the fly leaves which they contained."

"By this means I was amply stored with that commodity, nor did I fear any mention of the circumstances by the bookseller. As I was fully aware, from the variety of water marks which are in existence at the present day, that they must have constantly been altered since the period of Elizabeth, and being for some time wholly unacquainted with the water marks of that age, I very carefully produced my first specimens of the writing on such sheets of old paper as had no mark whatever."

"Having heard it frequently stated that the appearance of such marks on the papers would have greatly tended to establish their validity, I listened to every remark that was made on the subject, and I at length gleaned the intelligence that a jag was the prevalent water mark of the reign of Elizabeth, in consequence of which I inspected all the sheets of old paper then in my possession, and having selected such as had the jag on them I produced the succeeding manuscripts upon these, being careful, however, to mingle with them a certain number of blank leaves that the reduction on a sudden of so many water marks might not excite suspicion in the breasts of those persons who were most conversant with the manuscripts."

A traveler in Messina was once shown a letter written by the Virgin Mary with her own hand. He remarked that it must indeed be a miracle, since the paper showed by its water mark that it was not made till some centuries after the age of Mary.

It is the greatest mystery to most people how water marks are made. And at the matter is the simplest thing in the world. In the manufacture of paper the pulp, before it has begun to be dried and after it has been spread on a roller called the "dandy." On this "dandy" is affixed the device which works the water mark.

It is of bent wire, and as the roller presses the paper it presses into it the mark.

In the same manner most elaborate designs and even pictures and intricate representations of whole battle scenes have been done from an engraved plate similar to an electrotype, used in the same manner on the "dandy" roller.

Of course cheap paper and bank paper is the most important variety distinguished by water marks. In a pair of 25 note molds prepared by the old process there are 8 curved borders, 10 figures, 108 large waves and 240 letters, which had all to be separately secured by the finest wire to the curved surface.

There were 1,056 wires and 67,584 twists and the same repetition where the stout wires were introduced to support the under surface.

In ancient times the water marks were used for the same purposes as the old inn signs. The old inns had dolls and beehives, horses and various other forms as signs. For the same reason the paper makers had some distinguishing mark which made their product distinct from that of other makers.

A very famous mark of the sixteenth century was the handmark—a hand topped with a star. The jug or pot mark gave the name to the "pot" paper, while the foolscap mark used on paper of a certain size gave that size its name, which it retains to this day.

The post paper was so called because it bore a mark of a shield with a post horn on it—London Letters.
